

We met in KSL on Wednesday, Sep 9, 2026, at 11:30AM. Andrew, Adewola, and Aryan were present at this time.

We continued to work on the personas, adding images for each persona and filling out their descriptions.

Aryan wrote some key insights based on our affinity clustering and notes, while Adewola refined our needs statement. Andrew wrote two more key insights to reach a total of four.

At 12:00PM, Martin arrived. Along with the rest of us, he looked over the document and made some refinements to the section on Corey, one of our personas.

Around 12:30PM, Adewola and Aryan departed to attend other obligations. From 12:30 to 1:00pm, Martin and Andrew looked over the document as a whole to ensure that it included the appropriate details to meet our needs and the requirements of the assignment.

At 1:00pm, we adjourned the meeting.
