

We met on Friday, September 18, 2026, at 12:30PM in KSL. All members were present.

The goal of this meeting is to begin discussing our brainstorming ideas with each other. We did not have much time available, so our discussions were not able to go on too long.

Andrew created a document to record brainstorming ideas on. This document will eventually be submitted to Canvas.

Despite this, we made a good start on bringing up some key ideas that we all seemed to like. We also synthesized some of our similar ideas together.

At 1:00PM, Andrew left to attend an external obligation. Others continued to discuss ideas.

At 1:30PM, the meeting was adjourned.
