

We met on Monday, September 21, 2026, at 11:30AM, in Kelvin Smith Library. All members were present.

The goal of this meeting is to complete the Brainstorming Milestone and continue discussing our three primary concepts.

An auxiliary goal of this meeting is to determine a consistent meeting time that works for all members. Andrew created a When2meet.

Each member worked on their previously agreed roles at the beginning of the meeting. As Aryan, Martin, and Andrew finished the descriptions of each concept, Adewola worked on concept names and related concepts to specs.

We all fleshed out the larger idea tables by relating specs to every idea listed.

Once we were almost completed with the brainstorming paper, we reviewed the instructions for next week's assignment and started to form a plan for creating our concept slides to present to Skye before we meet on Wednesday.

We adjourned at 1:45pm.
